A STATEMENT OF ADVERTISING PRINCIPLES

1. **Good Advertising**—aims to inform the consumer and help him to buy more intelligently.
2. **Good Advertising**—tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which can not be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. **Good Advertising**—conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **Good Advertising**—recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories (publishers of the Rockingham Directory since 1957), present to subscribers and the general public, this, the 1965 edition of the Rockingham City Directory, which also includes Aleo Mills, Beaunit Mills, Beverley Hills, Cordova, East Rockingham, Eastside Park, Glenwood, Hannah Pickett Mills, Honeytown, Jefferson Park, Knob Hill, Maplewood, Pee Dee Mills, Richmond Park, Roberdell Mills, Safie Mills, Watson Heights, West Rockingham and Rural Route Residents.

Confidence in the growth of Rockingham's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Rockingham to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Rockingham Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the community, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the community. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Rockingham, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Rockingham and the name, official personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the number of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Rockingham and vicinity.

The Rockingham Out-of-Town City Directory Library

Through the courtesy of the publishers of the Rockingham City Directory, a Directory Library is maintained in the offices of the Rockingham Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in cities and towns throughout the U. S., Canada and Puerto Rico by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY COMPANY,

Publishers.

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a

tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organization and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore $1000 \times 3\frac{1}{2} \times 305$ equals 1,067,500.

CASHIERS! TELLERS! CLERKS!

**Do your employers furnish you with
the latest edition of the City Directory?**

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

a Complete Street and Avenue Guide

1965

Including Aleo Mills, Beaunit Mills, Beverley Hills, Cordova, East
Rockingham, Eastside Park, Glenwood, Hannah Pickett Mills,
Honeytown, Jefferson Park, Knob Hill, Maplewood, Pee Dee
Mills, Richmond Park, Roberdell Mills, Safie Mills,
Watson Heights and West Rockingham

Copyright, 1965, by Hill Directory Company

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house-owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes nor responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parentheses denote old numbers.

The word street is not used in addresses. Where a designation av, cir, ter, etc., does not appear, the designation st is understood.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return". In each case the Publishers tried diligently, by various means to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible).

CITY DIRECTORY

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for **THREE HUNDRED and FIVE** days, therefore $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$.

**CONSULTATIONS OR CIRCULATION
CONSULTED**

Out of Sight - Out of Mind

★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. **Insist on being well represented in its pages.**

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A "*Yellow Section*" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5 A *Statistical and Historical Story* of your city; plus miscellaneous other information.
